BACKGROUND

Genome BC is a not-for-profit organization supporting world-class genomics research projects, technology platforms and innovation initiatives with the aim of growing a globally competitive life sciences sector and delivering sustainable benefits for British Columbia, Canada and beyond.

By connecting academic researchers, industry partners, and public sector interests, it advances research and innovation collaborations, invests in promising start-up companies, and catalyzes partnerships to drive societal, environmental, and economic benefits for BC.

Since 2000, Genome BC has managed a cumulative portfolio of nearly $1.3B in over 500 research projects, technology platforms, and innovation initiatives that are improving the lives of people every day through advances in health care, forestry, fisheries and aquaculture, agrifoods and agriculture, mining and energy, and environmental stewardship.

ECONOMIC IMPACT ANALYSIS

Genome BC’s investments in projects and associated platforms, as well as its centre operations, create economic activity within BC which in turn generates GDP, employment, and tax revenues for all levels of government. In addition, economic impacts are enabled through the spending of additional funds leveraged from other sources as a result of Genome BC’s initial investment in projects and associated platforms.

These expenditures create economic impacts at the direct, indirect and induced levels. Direct impacts arise from the initial spending on operating and project related activities while indirect and induced impacts arise from linkages that exist with suppliers and service providers, as well as through the ripple effects of their spending within the economy.

CATEGORIES OF ECONOMIC IMPACTS

MAJOR INVESTORS AND CO-FUNDERS

- Genome Canada
- Province of BC
- Other Investors and Co-Funders

ECONOMIC IMPACTS

- Created by Genome BC’s Centre Operations
- Enabled by Genome BC’s Investments and Co-Investments in Projects and Associated Platforms
- Created by Genome BC’s Investments in Projects and Associated Platforms
- Created by Genome BC’s Investments and Co-Investments in Programs Supporting SMEs
- Enabled by Genome BC’s Investments and Co-Investments in SMEs through the I² Program
The table below summarizes the total estimated economic impacts throughout Genome BC’s Strategic Plans I, II, III, IV†, V and the Financial Plan VI by category.
