

NICE GENES!

S4E06

LOST but FOUND

What comes to mind when you think of FORENSIC SCIENCE?

What caused the tsunami in 2004 and why did it cause so much damage?

DVI

What is Disaster Victim Identification?

Why are teeth often used in DVI?

How can forensic odontologists determine identity from teeth?

How has Rapid DNA technology improved the speed of DVI?

What are the limitations?

A victims remains are found without dental records or close family. what would be your next steps as a DVI expect?

what ethical questions arise with the use of Rapid DNA and genetic genealogy?

Rapid DNA is... well... rapidly improving. How do you expect this technology to grow in the future?
